DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, drawn to an input device.

Group II, claim(s) 13-32, drawn to a dentist's or dental treatment station/work station.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Independent claim 1 and independent claim 13 share only one technical feature, which is "an input device for the generation and wireless transfer of navigation and/or control information for the activation and control of functions of the apparatuses". However, this feature is not "special", as evidenced by Autry et al. US 5,724,106, cited in the international search report (e.g., col. 3 lines 40-51, col. 5 line 65 - col. 6 line 14, Fig. 1, col. 7 lines 20-40, col. 8 lines 37-41, col. 11 lines 24-51, Figs. 9A-9C, col. 12 lines 1-33, col. 13 lines 51-55, col. 18 lines 23-48).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
